

# **MODERN PLASTICS**

Index to

## **VOLUME 42**

September 1964 through August 1965

Index to MODERN PLASTICS ENCYCLOPEDIA ISSUE is bound in each copy

1 GENERAL INDEX OF TITLES .....	2
2 INDIVIDUAL SUBJECTS .....	7
3 INDEX OF AUTHORS .....	25

**MODERN PLASTICS**

A McGraw-Hill Publication

1301 Avenue of the Americas, New York, N.Y. 10019

## GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p. 5).

A	Month	Page		Month	Page
A case of acetal for watches . . . . .	September	104	Clamp system (blow molding) . . . . .	March	99
A challenge for 1965 (Editorial) . . . . .	January	75	Come on up (Editorial) . . . . .	May	81
A lesson to be learned (Editorial) . . . . .	February	71	Coming market for polyethylene:		
A matter of perspective (Editorial) . . . . .	December	83	milk bottles . . . . .	December	84
A new look at plastics pipe — Part 1 . . . . .	May	82	Cutting the costs of assembly . . . . .	September	100
A new look at plastics pipe — Part 2 . . . . .	June	100			
A new look at plastics pipe — Part 3 . . . . .	July	95	D		
A realistic look at plastics in building . . . . .	February	72	Decorative trellis work uses		
A realistic look at plastics in building:			polystyrene . . . . .	June	54
Acrylic sheet . . . . .	August	89	Designing closures for a dual purpose . . . . .	September	116
A realistic look at plastics in building:			Designing with fluorocarbons for		
Reinforced polyesters . . . . .	April	98	chemical applications . . . . .	October	148
A realistic look at plastics in building:			Designing with fluorocarbons for		
Rigid foams . . . . .	March	108	electrical applications . . . . .	October	141
A realistic look at plastics in building:			Deep submergence — a coming market		
Rigid PVC . . . . .	February	75	for reinforced plastics . . . . .	February	78
A time for reflection (Editorial) . . . . .	September	89	Determining effectiveness of antioxidants		
ABS sheet extrusion . . . . .	April	128	in polyolefins . . . . .	June	137
Acetal replaces bronze in bilge pump . . . . .	February	94	Development of Argentine plastics . . . . .	March	53
Acetals . . . . .	January	99	Dimensional behavior of acetal		
Acrylic . . . . .	January	98	copolymer moldings . . . . .	June	115
Acrylic extrusion process lowers cost . . . . .	June	52	Dimensions of design . . . . .	April	88
Acrylic panels make efficient dome for			Distribution setup shows slow change . . . . .	April	52
botanical garden . . . . .	April	116	Dow's Alfrey: Recognition for the		
Advances in internal olefin			scientist . . . . .	March	66
polymerization . . . . .	June	54	Dutch marketing PS liquid containers . . . . .	March	54
Air flow measurement and its relation					
to properties of flexible urethane foam . . . . .	November	160	E		
An analysis of 1963 plastics production . . . . .	October	160	Eastman's Williams: In step with the		
An improved permeability apparatus of			times . . . . .	September	52
the variable-volume type . . . . .	October	154	Effect of pre-cyclic stresses on fatigue		
Another look at electrical discharge			life of RP laminates . . . . .	April	162
machining . . . . .	May	158	Effect of tin catalysts on physical		
Applications 1964 — shifting patterns . . . . .	January	106	properties of cellular urethane . . . . .	December	148
At the halfway mark (Editorial) . . . . .	July	83	Effects of resin parameters on		
Automated multilayer prepreg production . . . . .	August	118	properties of cured epoxy resins . . . . .	August	134
			Electronically sealed vinyl for low-cost		
B			bottle . . . . .	October	90
Battle for twine . . . . .	May	92	Electrostatic process prints on plastics . . . . .	April	52
Better cushion for missile . . . . .	May	96	Engineering plastics parts give spray		
Blow molded PE package brings			gun superior performance . . . . .	November	112
startling savings . . . . .	November	112	Epoxy . . . . .	January	103
Blow molded PE salt container . . . . .	May	52	Epoxy/aggregates protect, beautify		
Blow molded wine bottles . . . . .	January	48	exteriors . . . . .	March	116
Blow molding today — every market			Epoxy bonding of structural concrete		
a target . . . . .	August	76	saves \$15,000 on craneway repair . . . . .	July	109
Blown thin-walls bring case versatility . . . . .	June	107	Ethylene-vinyl acetate provides high-		
Boxes become more sophisticated . . . . .	October	106	style tire trim at low cost . . . . .	December	111
Breakthrough in thermoforming:			European developments in blow molded		
the ABS automobile body . . . . .	February	81	high-density polyethylene oil can . . . . .	October	110
Britain shows production gain . . . . .	February	46	Exciting adventures in plastics at		
British silence U.S. flagpole . . . . .	July	50	Hanover Fair . . . . .	June	50
Broader use of RP shower units . . . . .	July	50	Expandable polystyrene foam package		
Building superior performance into			really expands . . . . .	June	109
plastics . . . . .	September	90	Extruded profile makes superior		
Butyrate drafting instrument curves to			transistor package . . . . .	November	107
any shape . . . . .	August	98	Extruded profiles improve refrigerator		
Butyrate sheet aids in automobile body			sliding door performance . . . . .	February	93
styling and engineering . . . . .	December	109	Extruded vinyl rail guards . . . . .	February	84
C			F		
Catalysis and inhibition of diallyl			Failure mechanisms for filament rein-		
phthalate polyesters . . . . .	July	133	forced plastics . . . . .	April	143
Causes of polypropylene oven aging			Faster and better (Editorial) . . . . .	March	81
variability . . . . .	September	175	Fibrous reinforcement for portland		
Cellulosics . . . . .	January	96	cement . . . . .	April	156
Chemistry and flame retardancy of			Filament winding without auxiliary		
rigid urethane foams . . . . .	January	197	pressure vessels . . . . .	April	117
Chlorinated polyethers . . . . .	January	105			

	Month	Page
Filament wound RP vessels made by new process . . . . .	May	142
Filament wound structures . . . . .	September	160
Filament wound truck tank . . . . .	March	122
Fine filters through atomic bombardment of film . . . . .	December	111
Flame retardance — key to new plastics markets . . . . .	October	84
Flame-retardant characteristics of rigid urethane foams . . . . .	November	155
Flexible powder coatings are chemical resistant, won't crack or flake . . . . .	February	46
Fluorocarbons . . . . .	January	104
Fluorocarbons move into consumer goods — in volume . . . . .	February	88
Foam-core RP for better accoustics . . . . .	November	89
Foamed polyethylene film . . . . .	April	52
For FAST redesign — filament wound RP. Formed PS foam trays surpass molded pulp but cost no more . . . . .	April	110
Four-ply lamination improves bulk packaging . . . . .	November	109
French plastics show has strong international flavor . . . . .	February	46
	August	50

## G

German plastics production shows 21% increase . . . . .	June	54
Glass-reinforced polycarbonate by new route . . . . .	February	45
Growing plastics market . . . . .	April	54
Guide to moldability tests . . . . .	August	111

## H

Hans Reifenhauer: Quality comes first . . . . .	December	52
Hard shell for foam . . . . .	March	118
High density PE extrusions form base for transit contact rail . . . . .	December	110
High-performance filter vessel is molded of low-cost reinforced PP . . . . .	February	94
High-performance plastics for the nursery . . . . .	October	105
High-speed printing for oil cans . . . . .	February	45
Hinges for extruded parts . . . . .	February	86
HMWPE the tough olefin is starting to move . . . . .	July	84
Housewares — new market for plated ABS . . . . .	May	94
How design versatility broadens a market. . . . .	December	98
How plastics are moving ahead in refrigerators . . . . .	May	97
How polystyrene foam expands . . . . .	January	171
How the crystallization of nylon affects processing and properties . . . . .	September	137
How to estimate vacuum forming costs . . . . .	July	111
How to extrusion coat with nylon . . . . .	July	125
How to form integral hinges in polyethylene . . . . .	September	149
How to get good ultrasonic welds . . . . .	November	130
How to handle a huge foaming job . . . . .	October	92
How to metallize PTFE . . . . .	January	183
How to mold FRTP resins . . . . .	June	127
How to relate plastisol viscosity to processing problems . . . . .	May	149
Hydrostatic strength and design stresses for thermoplastic pipe . . . . .	September	160

## I

Impact polystyrene housing rejuvenates venerable spring scale . . . . .	June	113
Improved semi-flexible urethane foams . . . . .	November	150
Ingenious pour-closure design prevents adulteration of bottle contents . . . . .	December	110
Infrared heaters for thermoforming . . . . .	August	103

Insulating-powder spray apparatus . . . . .	January	215
Insulating the tall ones . . . . .	November	98
Ionic ethylene interpolymers . . . . .	March	135
Ionizing radiation tests PVC permeability . . . . .	May	51
Ionomer: a new thermoplastic . . . . .	September	98
It's a two-way street (Editorial) . . . . .	August	75

## J

Japan turns to rigid PVC for phones . . . . .	November	104
Joint venture in polycarbonate . . . . .	February	45

## K

Know-how that shouldn't be lost (Editorial) . . . . .	May	81
---	-----	----

## L

Lacquer marring by plasticizer migration from PVC . . . . .	September	169
Laminated rigid vinyl door makes unusual architectural design element . . . . .	November	107
Large PE bin for fruit picker is vacuum formed of $\frac{1}{2}$ -in. sheet . . . . .	October	111
Lawn figures rotationally cast of powdered polyethylene cost less . . . . .	June	110
Light microscopy and reinforced plastics . . . . .	December	143
Lightweight building panels made of phenolic and foamed clay . . . . .	February	46
Limestone fillers in epoxy systems . . . . .	July	147
Louvers designed with integral hinges . . . . .	May	52
Low-cost molds for RP with ethylene-vinyl acetate copolymer . . . . .	April	115
Low-cost PE film provides protection to high-cost parts . . . . .	May	147
Low-density cap seals high-density can . . . . .	March	54

## M

Machinery and equipment play a dynamic new role . . . . .	March	82
Maintenance-free window frames . . . . .	December	88
Making multi-colored extruded PVC panels the easy way . . . . .	August	100
Making plastics pay off in plant engineering . . . . .	April	107
Manufacture and use of polystyrene foams . . . . .	November	139
Marbon's Suiter: Dedication to the job — and the product . . . . .	April	66
Markets for machinery — today and tomorrow . . . . .	March	83
Markets in the East Bloc . . . . .	January	49
Materials for filament-wound high-temperature structural uses . . . . .	May	167
Measurement of cure for thermosetting coatings . . . . .	January	206
Measuring the adhesive bond of coatings to polyethylene . . . . .	June	144
Medical supplies package uses polystyrene . . . . .	June	51
Meeting the challenges of heat in housewares . . . . .	July	89
Melamine and urea . . . . .	January	94
Methacrylate dome brings daylight illumination to lecture hall . . . . .	September	132
Miniature dispenser supplies one-shot maintenance dose . . . . .	August	98
Molded acetal copolymer handle saves \$6500 per year . . . . .	August	97
Molded foam shipping container saves \$60,000 . . . . .	May	141
Molded parts miniaturize electronic package, cut cost, too . . . . .	October	95

	Month	Page
Molded phenoxy frames bring major economies to data processing systems .....	September	125
Molded PS lowers cost for forms for ducting in concrete .....	November	112
Molding technique for large parts .....	May	165
Montecatini loses again in patent fight .....	February	45
Monitoring production efficiency .....	March	114

## N

New alloy sheet is tough, rigid, very formable .....	July	102
New approach to cutting fence maintenance — resin-clad components ..	September	130
New developments in machinery and materials at Interplas .....	August	48
New engineering thermoplastic — polysulfone .....	May	87
New look for sunglass case through switch to propionate .....	March	121
New look in neon signs .....	April	96
New molding system .....	July	92
New plastics from England .....	April	54
New program graduates plastic technicians .....	July	52
New system facilitates installation of acrylic building panels .....	October	114
1964 engineering highlights .....	February	97
Ninth SPI cellular plastics conference ..	November	139
Novel foams from SAN copolymers .....	November	140
Now it's ABS in portable power tools ..	November	96
Nylon .....	January	98
Nylon hinges are stronger, lower in cost .....	March	54
Nylon-polyethylene film laminate makes unusual splint .....	April	115

## O

Oil tank is bottomless, floats on water ..	March	53
Olefin copolymers — what they can do ..	June	84
One-piece polypropylene screen solves several pump design problems .....	July	106
One-trip milk carton .....	March	54
Oscillating PP hinge brings parts reduction .....	September	114
Outlook for PVC windows — bright .....	August	82

## P

Packaging standards sought by Common Market .....	May	52
Parts properties and their relation to end-use performance .....	September	159
Parylene — new family of plastics .....	March	113
PE beverage cases .....	January	49
PE challenges wooden fish boxes .....	March	53
PE fish boxes find new market .....	July	52
PE sheet for better scooter parts .....	September	109
PE triples life of lobster traps .....	December	105
Phenolic .....	January	91
Phenolics — more versatile than ever ..	October	102
Phenoxies .....	January	105
Phosphorescent molding compounds eliminate critical blending .....	May	141
Photochromism .....	August	94
Physical property modifications of low density PE foams .....	November	144
Plastec's Pebby: Selling the product — information .....	February	56
Plastics for packaging .....	March	152
Plastics in Great Britain — 1965 .....	May	102
Plastics in Japan .....	January	116
Plastics marble offers lower cost, flexibility .....	May	51
Plastics 1964 .....	January	76

Plastics production in 1962 and 1963 grouped by classes and uses .....	October	161
Plastics production in 1963 grouped by chemical composition .....	October	164
Plastics star at Tokyo .....	July	100
Plastics swing into high gear on '65 cars ..	November	83
Plast 64, Milan .....	November	101
Polycarbonate .....	January	100
Polycarbonate caster is stronger than spoked wheel, costs less .....	October	109
Polyesters .....	January	101
Polyethylene .....	January	79
Polyethylene binds reinforcing bars .....	June	52
Polyimides .....	January	105
Polymer-bonded concrete .....	May	50
Polypropylene .....	January	83
Polypropylene cigarette pack .....	May	51
Polypropylene sheet for tanks .....	January	50
Polystyrene balls protect plating baths ..	April	54
Polystyrene foam floor cores bring insulation, reduce building cost .....	September	126
Polystyrene foam lifts sunken ship .....	July	50
Polystyrene housing, reflectors create new four-in-one flashbulb .....	August	97
Polyurethane foam insulates walls .....	May	51
PPO...new, high-heat thermoplastic ...	December	95
Pre-fab house uses coated wall elements ..	May	50
Production in the East Bloc .....	January	48
Progress in lighting .....	December	100
Properties of glass-reinforced epoxy through the 20° K. range .....	August	123
Pros and cons of centralized water chillers .....	November	121
Putting a conductive path into a non-conductive material .....	November	109
Putting the lid on evaporation with urethane foam core panels .....	July	105
PVAc binder for paper coating .....	May	50
PVC foam gives lift to boat .....	May	51
PVC roller shutters .....	June	52
PVF surfacing increases life of polystyrene light panels .....	April	116

## R

Radiant heating system for buildings based on PVC laminates .....	July	106
Redesigned one-piece cover saves \$4000/year .....	September	96
Reinforced epoxy for oil service .....	February	46
Reinforced epoxy outperforms hardened steel in springs .....	September	127
Reinforced plastics fencing makes safe barrier in corrosive environment .....	July	105
Reinforced plastics headliner .....	March	125
Reinforced plastics reduce cost of replacement fenders .....	May	144
Report on the Budapest meeting of ISO/TC 61 .....	December	161
Reducing the cost of polystyrene foam packages .....	March	121
Rigid PVC rain-carrying system makes United States debut .....	September	127
Rotary system (blow molding) .....	March	100
Rotationally molded powder polyethylene goes into complex shapes .....	November	108
RP blades cut an important 720 lb. off cooling tower fan weight .....	February	92
RP finds use in kayaks .....	July	52
RP thermoplastics sheeting uses asbestos fibers, PVC .....	May	52

## S

SAE automotive conference .....	March	166
Screw injection machine design .....	April	119

	Month	Page
<b>PLASTICS ENGINEERING (Continued)</b>		
Thermoset injection machine design . . . .	December	135
Using PE morphology to select cooling cycles . . . . .	November	117
Using self-adhesive labels on plastics . . .	January	194
Vacuum sizing of plastics pipe . . . . .	October	130
Velocity profiles for polyethylene melts . .	December	115
Web alignment and wrinkle control . . . .	October	123

## TECHNICAL SECTION

Air flow measurement and its relation to properties of flexible urethane foam . . .	November	160
An improved permeability apparatus of the variable-volume type . . . . .	October	154
Catalysis and inhibition of diallyl phthalate polyesters . . . . .	July	133
Causes of polypropylene oven aging variability . . . . .	September	175
Chemistry and flame retardancy of rigid urethane foams . . . . .	January	197
Designing with fluorocarbons for chemical applications . . . . .	October	148
Designing with fluorocarbons for electrical applications . . . . .	October	141
Determining effectiveness of antioxidants in polyolefins . . . . .	June	137
Effect of pre-cyclic stresses on fatigue life of RP laminates . . . . .	April	162
Effect of tin catalysts on physical properties of cellular urethane . . . . .	December	148
Effects of resin parameters on properties of cured epoxy resins . . . . .	August	134
Failure mechanisms for filament reinforced plastic . . . . .	April	143
Fibrous reinforcement for portland cement . . . . .	April	156
Filament-wound structures . . . . .	September	160

	Month	Page
Flame-retardant characteristics of rigid urethane foams . . . . .	November	155
Hydrostatic strength and design stresses for thermoplastic pipe . . . . .	September	162
Improved semi-flexible urethane foam . . . . .	November	155
Insulating-powder spray apparatus . . . . .	January	215
Ionic ethylene interpolymers . . . . .	March	135
Lacquer marring by plasticizer migration from PVC . . . . .	September	169
Light microscopy and reinforced plastics . . . . .	December	143
Limestone fillers in epoxy systems . . . . .	July	147
Manufacture and use of polystyrene foams . . . . .	November	139
Materials for filament-wound high-temperature structural uses . . . . .	May	167
Measurement of cure for thermosetting coatings . . . . .	January	206
Measuring the adhesive bond of coatings to polyethylene . . . . .	November	144
Ninth SPI cellular plastics conference . . . . .	November	139
Novel foams from SAN copolymers . . . . .	November	140
Parts properties and their relation to end-use performance . . . . .	September	159
Physical property modifications of low density PE foams . . . . .	November	144
Properties of glass-reinforced epoxy through the 20° K. range . . . . .	August	123
Report on the Budapest meeting of ISO/TC 61 . . . . .	December	161
Simulated service testing . . . . .	September	155
SPI reinforced plastics meeting . . . . .	January	221
Standardization of plastics in the U.S. . . . .	May	176
Sulfur-vulcanizable ethylene copolymers . . . . .	March	145
Testing thermoplastic parts in a resin laboratory . . . . .	September	155
The production chemist and flexible urethane foam technology . . . . .	November	146
The year 1964 in review . . . . .	February	11

## INDIVIDUAL SUBJECTS

(ab) = Abstract; (ma) = Machinery and Equipment; (pl) = Plastiscope

IMPORTANT: Annual reviews of materials, processing, and applications are not completely cross-indexed here because of their survey nature. "Patents," and "Literature" are not indexed. Also omitted from this index are those Plastiscope

items devoted to company news, personnel news, and similar items of timely news value, but not considered as reference material.

Flame retardant coatings for	October	88
Polypropylene in (pl)	November	210
Yarn from film, Japanese	June	54

**FASTENERS**

Types of plastics (ab)	May	54
------------------------	-----	----

**FIBERS**

Filament winding, glass for	May	167
Monofilament extrusion system, NRM (ma)	April	62
Monofilaments, twine from PP	May	92
Polymers as (ab)	March	56
Science of tailor-made (ab)	May	54

**FILAMENT WINDING - see also Reinforced Plastics**

Curing, fast method of	April	117
Gasoline tank, 6000 gal	April	91
Machine, McClean-Anderson (ma)	June	60
Machine, Wilson (ma)	March	62
Materials for, high temperature	May	167
Missile blast tube, fabricating	April	110
Tank, truck-trailer	March	122
Testing filament-wound structures	September	160
Underwater structures	February	78
Vessels, new liner for pressure	May	142
Winding angle, effect of (ab)	November	72

**FILLERS**

Boron	September	178
Calcium carbonate in PVC, effects of (ab)	May	54
Carbon black recovery from PE (ab)	December	70
Fluorocarbons as	September	91
Limestone in epoxy systems	July	147
Literature, review of	February	135
Metals as	September	182
Polypropylene, influence on (ab)	March	56
Types of	September	93
Uses of	September	90
Vibration damping	September	182

**FILM AND SHEET**

Acrylic sheet, British extruded	June	52
Acrylic sheet, building uses of	August	89
Agricultural plastics (ab)	February	48
Blown film line, NRM (ma)	March	60
Blown film line, Sterling (ma)	December	54
Cap sheets, ABS	July	174
Electrical properties of thin films (ab)	November	72
Extruder, AMUT blown film (ma)	November	56

	Month	Page
<b>FILM AND SHEET (Continued)</b>		
Extruder, Covema blown film (ma) . . . . .	November	62
Irradiation of film, effects of (ab) . . . . .	December	70
Laminate, four-ply packaging . . . . .	February	46
Laminates, packaging uses of . . . . .	June	94
Metallizing, PP (pl) . . . . .	July	45
Nylon, multilayer . . . . .	August	84
Nylon, new uses of . . . . .	July	168
Nylon-polyethylene laminates . . . . .	July	125
Nylon-PE film laminate splints . . . . .	April	115
Nylon unsupported . . . . .	November	95
Packaging (ab) . . . . .	June	56
Packaging films, report on . . . . .	June	94
Packaging, film for produce (pl) . . . . .	November	49
Packaging, nylon film for . . . . .	August	84
Packaging, review of . . . . .	March	152
Packaging, statistics on (pl) . . . . .	March	210
Parylene, new film former . . . . .	March	113
Permeability of strained films (ab) . . . . .	December	70
Polyethylene foamed, Japanese . . . . .	April	52
Polypropylene, markets for (pl) . . . . .	February	41
Polyvinyl fluoride film surface for PS panels . . . . .	April	116
Properties, effects of shrinkage on (ab) . . . . .	September	74
Running high-yield film (ab) . . . . .	January	52
Scooter parts, PE sheet formed . . . . .	September	109
Sealer, Thermatron automatic (ma) . . . . .	September	62
Sheet extrusion, ABS . . . . .	April	128
Sheet, PVC/PMM . . . . .	July	102
Sheets, spray build up of (ab) . . . . .	July	54
Shoe heels, vinyl trimmed . . . . .	March	107
Shrinkage, effects on film properties (ab) . . . . .	September	74
Slitter-rewinder, Dusenbery (ma) . . . . .	April	62
Slitting machine, Judelshon (ma) . . . . .	August	58
Tubular PE and PP, production of (ab) . . . . .	October	66
Twine from PP film . . . . .	May	92
Underground warning system, PE film in . . . . .	May	147
Vinyl, expanding use of . . . . .	December	94
Vinyl film, soft (pl) . . . . .	May	47
Web alignment . . . . .	October	123
Web monitor, Electronic Automation (ab) . . . . .	September	58
Winder, Waldron-Hartig (ma) . . . . .	April	64
Wrinkle control . . . . .	October	123
Wrinkle eliminator, Ross (ma) . . . . .	November	60
Wrinkle removing roll, Briem (ma) . . . . .	March	64
Yarn from film, Japanese . . . . .	June	54
<b>FINISHING - see also Machining</b>		
Literature on . . . . .	February	152
Tumbling machine, Ball & Jewell (ma) . . . . .	July	60
<b>FLAME RESISTANCE</b>		
Flame retardance, value of . . . . .	October	84
Flame retardant PP . . . . .	July	96
Flame retardants, types of . . . . .	October	88
Literature, review of . . . . .	February	136
Urethane foams, of . . . . .	January	197
<b>FLOOR COVERINGS</b>		
Coumarone-indene and petroleum polymers polymers in . . . . .	February	72
Vinyl in . . . . .	February	72
<b>FLUIDIZED-BED COATING</b>		
British developments in . . . . .	May	130
Fence posts, epoxy coated . . . . .	September	130
Literature, review of . . . . .	February	161
Nylon, on metal . . . . .	November	95
<b>FLUOROCARBONS</b>		
Annual report on . . . . .	January	104
Bearings . . . . .	July	164
Blow molded FEP applications . . . . .	August	76
Chemical applications, designing for . . . . .	October	148
Consumer uses of . . . . .	February	88

	Month	Page
<b>FLUOROCARBONS (Continued)</b>		
Electrical applications, designing for . . . . .	October	141
Filled . . . . .	September	180
Fillers, as . . . . .	September	91
Film, nylon-TFE-PE . . . . .	August	84
Hermetic sealing with . . . . .	July	164
Housewares uses of (pl) . . . . .	May 220, July 89	
Japanese progress in . . . . .	January	125
Kitchen uses of . . . . .	February	88
Literature, review of . . . . .	February	118
Metallizing PTFE . . . . .	January	183
Plumbing uses of . . . . .	October	98
Room temperature curing . . . . .	February	91
Spray gun parts of . . . . .	November	115
Unit-dose dispensers of . . . . .	August	98
Wood, coating for . . . . .	February	91
<b>FOAMED PLASTICS</b>		
Barge insulation, urethane . . . . .	May	143
Beads, adhesive bonded PS . . . . .	March	121
Boat hull, RP-foam trimaran . . . . .	April	93
Boats, PVC in British . . . . .	May	51
Box, expandable styrene shipping . . . . .	June	109
Building uses of . . . . .	March	108
Catalysts, effects of tin, on urethane . . . . .	December	148
Compressor, Goulding (ma) . . . . .	June	58
Conference, 9th SPI . . . . .	November	139
Containers, molded PS shipping . . . . .	May	141
Control system, foam molding (ma) . . . . .	December	56
Cups, disposable expandable styrene . . . . .	June	96
Cushioning, industrial PE . . . . .	January	165
Domes, spiral-generated PS foam . . . . .	March	110
Evaluating rigid (ab) . . . . .	August	52
Expander, Pelaspan-Pac PS (ma) . . . . .	October	60
Expansion molding of PE . . . . .	July	92
Extruder, Barand expandable PS (ma) . . . . .	January	60
Filters, in . . . . .	September	100
Flag pole silencer, British urethane . . . . .	July	50
Flame retardant urethane . . . . .	October	84
Flooring panels, PS foam cored . . . . .	September	126
Flotation job, Texas Tower . . . . .	October	92
Gasoline cover, floating urethane . . . . .	July	105
Insulation, urethane building . . . . .	November	98
Insulation, urethane refrigerator . . . . .	March	129
Insulation, urethane and styrene . . . . .	March	206
Japanese train use of . . . . .	January	123
Literature, review of . . . . .	February 110, 135	
Machine, Jennings metering and mixing (ma) . . . . .	October	58
Machine, Martin Sweets (ma) . . . . .	September	56
Machine, Viking-Chase urethane foaming (ma) . . . . .	November	62
Microwave heating speeds cure (ab) . . . . .	January	52
Missile cushions, urethane . . . . .	May	94
Molding, literature on . . . . .	February	110
Molding machine, Autoexpander PS (ma) . . . . .	October	62
Molding machine, Minimizer PS (ma) . . . . .	May	56
Molding machinery, markets for PS . . . . .	March	88
Molding machinery, sales of PS . . . . .	March	87
Molding press, German . . . . .	June	51
On-site foaming, urethane . . . . .	March	112
Packaging, review of . . . . .	March	156
Panel machine, M-H urethane foam (ma) . . . . .	December	60
Panels, foam-core acoustical . . . . .	November	89
Panels, load bearing (ab) . . . . .	January	52
Phenolic, in building (ab) . . . . .	December	70
Polyethylene film, Japanese foamed . . . . .	April	52
Polyethylene, property modifications of . . . . .	November	144
Polymers, novel ways of making (ab) . . . . .	December	70
Polystyrene trays . . . . .	November	109
Pre-expander, Artisan PS (ma) . . . . .	December	58
Pre-expansion of PS, effect of . . . . .	January	171
Refrigerator insulation, urethane . . . . .	May	97
Sandwich cores, in-situ foamed urethane (ab) . . . . .	April	56
Ship salvage, PS for . . . . .	July	50
Splitter, Falls Engineering (ma) . . . . .	February	54

**FOAMED PLASTICS (Continued)**

141	Steam molding, aspects of (ab) . . . . .	November	72
180	Styrene, manufacture and use of . . . . .	November	139
91	Styrene-acrylonitrile, novel . . . . .	November	140
84	Tank insulation, urethane . . . . .	March	122
164	Urethane, air flow and properties . . . . .	November	160
uly 89	Urethane, flame retardancy of . . . . .	January	197
125	Urethane, flame-retardant rigid . . . . .	November	155
88	Urethane, improved semi-flexible . . . . .	November	150
118	Urethane, Japanese progress in . . . . .	January	138
183	Urethane, sprayed-up (pl) . . . . .	January	268
98	Urethane technology, production problems of . . . . .	November	146
91	Vinyl shell for PS beads . . . . .	March	118
98	Wall insulation, Swiss urethane . . . . .	May	51

**FORMING - see Sheet Forming****FURNITURE**

143	Casters, nylon . . . . .	April	90

Fluorocarbon coating for . . . . .	February	91
Panels, epoxy-aggregate faced . . . . .	March	116
Plywood, plastics in . . . . .	February	72
Vinyl-sawdust molding material (ab) . . .	February	48

	Month	Page
<b>WORLD-WIDE PLASTICS</b>		
Acrylic greenhouse, Japanese . . . . .	July	50
Acrylic sheet, British extruded . . . . .	June	52
Argentina plastics production . . . . .	March	53
Antistatic additive, German . . . . .	June	51
British production gains . . . . .	February	46
Building, British use of plastics in (ab) . .	March	56
Chipboard, British use of urea in (ab) . .	June	56
Cigarette pack, Venezuelan PP . . . . .	May	51
Concrete, Russian phenolic bonded . . . .	May	50
Distribution techniques, plastics . . . . .	April	52
East Bloc, production and markets in . .	January	48
European oil cans, polyethylene . . . . .	October	110
European polyolefin capacity (ab) . . . .	November	72
Finland as plastics market . . . . .	April	54
Fish boxes, British PE . . . . .	July	52
Fish boxes, Italian . . . . .	March	53
Flag pole silencer, British urethane foam	July	50
Foam in British boats, PVC . . . . .	May	51
Foam molding press, German . . . . .	June	51
French wine bottles, PVC . . . . .	January	48
Great Britain, plastics in . . . . .	May	102
Hanover Fair, report on . . . . .	June	50
Hinged louvers, British PP . . . . .	May	52
Injection machine, Triulzi thermoset (ma)	June	64
International plastics know-how (Editorial) . . . . .	August	75
International Trade Fair, Tokyo . . . . .	July	100
Interplas Exposition, London . . . . .	August	48
Japan, review of plastics in . . . . .	January	116
Japanese door, rigid vinyl laminated . .	November	107
Japanese expansion plans . . . . .	January	124
Japanese exports, imports . . . . .	January	136
Japanese phones, PVC for . . . . .	November	105
Japanese plastics production . . . . .	January	121
Kayaks, Belgian RP . . . . .	July	52
Light housings, British polyester TV . .	June	52
Locomotive, RP parts for Czech . . . .	June	89
Marble, British plastics . . . . .	May	51

**WORLD-WIDE PLASTICS (Continued)**

	Month	Page
Milan plastics fair, "Plast 64" . . . . .	November	101
Nylon parts, large German . . . . .	June	50
Oyonnax Plastics Show, France . . . . .	August	50
Package, British molded styrene . . . . .	June	51
Paper coating, Japanese PVA . . . . .	May	50
Patent fight, Montecatini loses . . . . .	February	45
Permeability tests, Czech PVC . . . . .	May	51
Pipe, German polybutylene hot . . . . .	June	51
Pipe, Japanese export of PVC (pl) . . . .	October	45
Plastics training in Austria . . . . .	July	52
Plating baths protected by PS balls, U.S.S.R. . . . .	April	54
Plating, German metal . . . . .	June	50
Polyethylene expansion (pl) . . . . .	March	45
Polyethylene film, Japanese foamed . . .	April	52
Polymerization, French advances in . . .	June	54
Printing, Japanese electrostatic . . . . .	April	52
Pre-fab houses, plastics in Austrian . . .	May	50
Production increase, German . . . . .	June	54
Production increase, Japanese . . . . .	June	54
Reinforced thermoplastic sheet, British PVC . . . . .	May	52
Reinforcing bars, German PE binding for.	June	52
Salt container, Dutch blow molded PE . .	May	52
Ship salvage, Danish use of PS foam for .	July	50
Shower units, British RP . . . . .	July	50
Shutters, British PVC roller . . . . .	June	52
Standardization, French plastics (ab) . .	August	52
Thermoset injection molding, Soviet (ab) . . . . .	August	52
Tire valve caps, plastics in Dutch . . . .	June	54
Trellis-work, Italian molded PS . . . . .	June	54
Wall insulation, Swiss urethane foam . .	May	51
Windows, German stained "glass" . . . . .	June	51
Yarn from film, Japanese . . . . .	June	54

**WORLD'S FAIR, NEW YORK**

Plastics at, literature on . . . . .	February	159
--------------------------------------	----------	-----

**3****INDEX OF AUTHORS****AUTHORS****A**

Allbright, C. T. — Using self-adhesive labels on plastics . . . . .	January	194
--	---------	-----

**B**

Backus, J. K. — Improved semi-flexible urethane foams . . . . .	November	150
Bailey, F. W. — Sulfur-vulcanizable ethylene copolymers . . . . .	March	145
Baxter, S. — How polystyrene foam expands . . . . .	January	171
Beacham, H. H. — Catalysis and inhibition of diallyl phthalate polyesters . . . . .	July	133
Bennett, B. — Light microscopy and rein- forced plastics . . . . .	December	143
Bert, C. W. — Automated multilayer pregreg production . . . . .	August	118
Boller, K. H. — Effect of pre-stress cycles on fatigue life of RP laminates . . . . .	April	162
Bonotto, S. — Ionic ethylene interpolymers.	March	135
Borro, Edward F., Sr. — Phenolics — more versatile than ever . . . . .	October	102
Broutman, L. J. — Failure mechanisms for filament reinforced plastics . . . . .	April	143

**C**

Crisman, W. C. — Automated multilayer pregreg production . . . . .	August	118
---	--------	-----

**AUTHORS**

Christie, S. H., III — Effects of resin parameters on properties of cured epoxy resins . . . . .	August	134
--	--------	-----

**D**

De Benedictis, T. — Determining effectiveness of antioxidants in polyolefins . . . . .	June	137
De Coste, J. B. — Lacquer marring by plasticizer migration from PVC . . . . .	September	169
Deeley, C. W. — Guide to moldability tests . . . . .	August	111
Dickert, E. A. — Chemistry and flame retardancy of rigid urethane foam . . . .	January	197

**E**

Eagleton, S. D. — How polystyrene foam expands . . . . .	January	171
Eihausen, J. W. — The plasticizers story: 1963 . . . . .	September	120

**F**

Fenner, Otto H. — Designing with fluoro- carbons for chemical applications . . . .	October	148
Fesman, G. — Air flow measurement and its relation to properties of flexible urethane foam . . . . .	November	160

AUTHORS	Month	Page
Fisher, J. R. — A realistic look at plastics in building .....	February	72
Fitzpatrick, E. J. — The cost of setting up a processing line for thermoset molding .....	March	102
Forsman, J. P. — Causes of polypropylene oven aging variability .....	September	175

## G

Gallahue, William W. — Web alignment and wrinkle control .....	October	123
Galt, J. — Velocity profiles for polyethylene melts .....	December	115
Gareis, P. J. — An improved permeability apparatus of the variable-volume type ..	October	154
Gemeinhardt, P. G. — Improved semi-flexible urethane foams .....	November	150
Gilbride, E. — Limestone fillers in epoxy systems .....	July	147
Goldfein, S. — Fibrous reinforcement for portland cement .....	April	156
Goldie, W. — How to metallize PTFE ....	January	183
Grey, P. J. — How polystyrene foam expands .....	January	171

## H

Hagan, R. S. — Parts properties and their relation to end-use performance ..	September	159
Hansen, R. H. — Determining effectiveness of antioxidants in polyolefins .....	June	137
Hirsch, H. — Thermal conductivity of epoxy resin systems .....	October	133
Hirschey, M. E. — Techniques for hot-stamping multicolor heat transfers ....	April	132
Huseby, T. W. — Using PE morphology to select cooling cycles .....	November	117

## I

Ingram, A. R. — Novel foams from SAN copolymers .....	November	140
---	----------	-----

## J

Jameson, E. C. — Another look at electrical discharge machining .....	May	158
Jeffery, R. W. — Infrared heaters for thermoforming .....	August	103
Jonap, Lane — The cost of setting up a processing line for injection molding ...	March	95
Jones, R. E. — Air flow measurement and its relation to properties of flexible urethane foam .....	November	160
Jury, Malvern — Screw injection machine design .....	April	119

## K

Kline, Gordon M. — Standardization of plastics in the U.S. ....	May	176
Koved, F. — Thermal conductivity of epoxy resin systems .....	October	133

## L

Lazor, John T. — How to relate plastisol viscosity to processing problems .....	May	149
Leiper, C. H. — How to estimate vacuum forming costs .....	July	111
Levinson, S. B. — Limestone fillers in epoxy systems .....	July	147
Litwin, J. — Catalysis and inhibition of diallyl phthalate polyesters .....	July	133

## AUTHORS

## M

McDonald, E. J., Jr. — ABS sheet extrusion .....	April	128
McNeil, D. W. — Light microscopy and reinforced plastics .....	December	143
Mack, G. P. — Effect of tin catalysts on physical properties of cellular urethane .....	December	148
Martenson, J. A. — Materials for filament-wound high-temperature structural uses.	May	167
